SUMMARY

Unreal Engine C++ Developer focused on modern C++, clean architecture, and performance optimization. Proficient with the Gameplay Framework, GAS, and version control (Git/Perforce). Eager to apply hands-on experience to build scalable, high-performance gameplay systems.

PROJECT

Conspiracy Theory Game

Game Jam • github.com/KanstantsinTaukach/Conspiracy-Theory-Game • June 2025 – August 2025

- Collaborated in a cross-functional team to deliver a complete game within one month;
- Developed all gameplay features from scratch, ensuring code reliability and stability;
- C++, Agile Development, Team Collaboration, Git.

Shoot Them Up

Personal Project • github.com/KanstantsinTaukach/ShootThemUp • June 2024 – June 2025

- Developed a third-person shooter with modular, component-based architecture following Unreal Engine best practices and modern C++ standards;
- Applied object-oriented design principles to create reusable and scalable gameplay components with clean separation of concerns;
- Maintained consistent code quality with .clang-format configuration and followed modern C++ coding standards;
- Modern C++, Git, Unreal Engine Gameplay Framework, Component-Based Architecture, AI Programming, UMG/Slate UI.

Snake Game

Educational Project • github.com/KanstantsinTaukach/snake-game • April 2024 – June 2024

- Implemented a classic game demonstrating core software engineering principles;
- Applied Object Pool design pattern for efficient memory management and performance;
- Built clean, well-documented architecture with separation of concerns.
- C++, Design Patterns, OOP, Memory Management.

EDUCATION

Software Engineer, Faculty of Information Technology

School of Business and Management of Technology of Belarusian State University • Belarus, Minsk • 2019

Engineer, Faculty of Mechanical Engineering

Brest State Technical University • Belarus, Brest • 2009

CERTIFICATIONS

Unreal Engine - полное руководство по разработке на C++

Udemy • 2025

C++ Software Development Introduction

EPAM Systems • 2021

C++ Best Practices for Developers

LinkedIn • 2021

EFSET English Certificate 56/100 (B2 Upper Intermediate)

EF SET • 2021

SKILLS

C, Modern C++ (C++11/14/17/20); Clean code principles, SOLID, Design Patterns;
Unreal Engine (C++ API), GAS;
Git, Perforce.
